

Scapa Nutri-T Blend

Super Skin Moisturizer

Scapa Nutri-T Blend Super Skin Moisturizer helps maintain skin's natural moisture balance to protect collagen and elastin found in the skin.

- Blend provides source of nutrients and vitamins to maintain skin health
- Hydrates dry and cracked skin
- Soothes and conditions
- Provides strong antioxidant activity
- Provides anti-inflammatory efficacy
- Helps protect collagen and elastin
- Maintains skin moisture

Our custom portfolio of topical wound care and skin care products allow us to deliver unique turn-key solutions to our partners.

Maximum Skin Nourishment

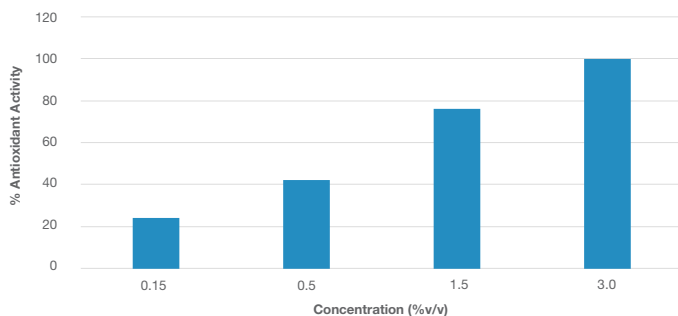

Nutri-T is a proprietary blend of moisturizers, antioxidants and skin repair actives extracted from carefully harvested, micro-filtered aphanizomenon flos-aqua (AFA), otherwise known as blue-green algae.

The algae is harvested from Klamath Lake in Oregon which is well-known for its unique ecosystem. The lake is fed by rainfall which passes through mineral-rich volcanic soil to create one of the most nutrient rich areas on the planet.

The algae is processed into a bioavailable, stable and homogenous product resulting in an active ingredient with superior bioavailability for maximum skin nourishing performance.

Clinical Data

Antioxidant Protection

The Nutri-T Blend at 2% helps control and scavenge more than 75% hydroxyl radical formation in the skin to prevent damaging oxidization reaction.

Nutrient Rich Formulation

Zinc

- Assists with the production of Collagen

Green Tea Extract

- Antioxidant / Anti-inflammatory
- Promotes skin renewal

Collagen & Elastin

- Marine derived proteins help skin remain supple and elastic

Blue-Green Algae Extract

- Blend of vitamins, minerals, eight essential amino acids, fatty acids and protein
- Naturally occurring combination of moisturizers, antioxidants, skin repair actives
- Beta-carotene neutralizes free radicals, acts as an antioxidant and vitamin A precursor
- B Vitamins control skin discoloration and provide anti-inflammatory properties
- Certified organic
