

Trusted Strategic Outsource Partner

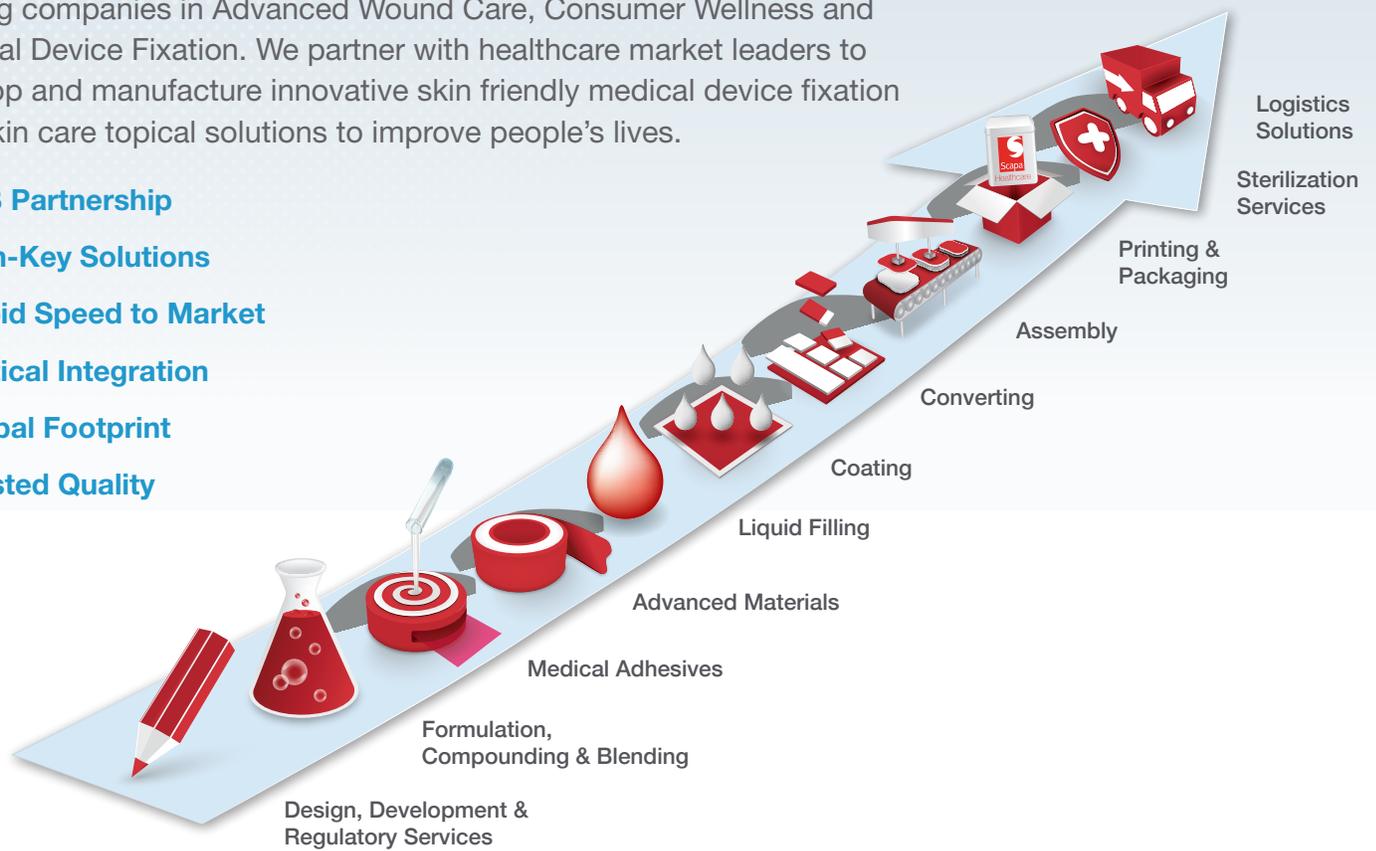

Skin Friendly Turn-Key Solutions

# Trusted Strategic Outsource Partner

Scapa Healthcare is the trusted strategic partner of choice for the world's leading companies in Advanced Wound Care, Consumer Wellness and Medical Device Fixation. We partner with healthcare market leaders to develop and manufacture innovative skin friendly medical device fixation and skin care topical solutions to improve people's lives.

- **B2B Partnership**
- **Turn-Key Solutions**
- **Rapid Speed to Market**
- **Vertical Integration**
- **Global Footprint**
- **Trusted Quality**

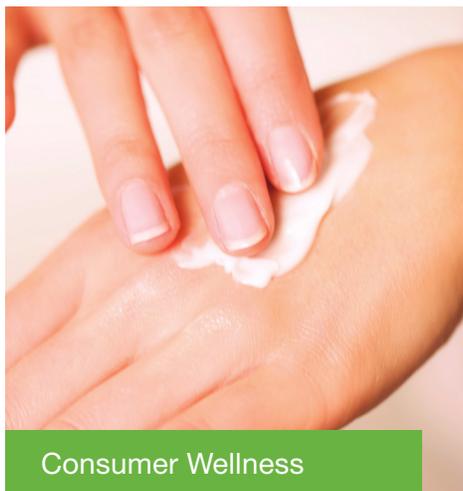

## Our Markets

Advanced Wound Care

We offer a broad range of technologies and capabilities for wound dressings, ostomy accessories and topical products.

Consumer Wellness

We offer a full range of skin fixation and topical skin care solutions for health & beauty applications.

Medical Device & Fixation

We develop customized fixation solutions for diagnostics and continuous monitoring of clinical wearable devices.

Comprehensive set of  
**turn-key solutions** to help our  
**customers win** in the marketplace.

## Custom Solutions

### **Core Technologies**

In-depth expertise in medical adhesives, advanced materials and topical products.

- **Scapa Soft-Pro® Adhesives**
- **Bioflex® Materials**
- **Skin Care Topical Products**

### **MEDIFIX Solutions™**

Customized clinical wearable medical device fixation solutions for diagnostics and continuous monitoring.

## Market Ready Solutions

### **Advanced Wound Care**

Hydrogel and hydrocolloid dressings, and topical skin care solutions.

### **Consumer Wellness**

Hydrocolloid and hydrogel fixation solutions for health & beauty.

### **Ostomy Accessories**

Hydrocolloid fixation solutions to enhance ostomy appliances wearability.

### **Device Fixation**

Medical grade adhesive rollstock for conversion into medical devices.

## Capabilities

### **Custom Formulation & Mixing**

Extensive expertise in adhesive and topical skin care product formulations.

### **Adhesive Coating & Slitting**

Variety of coating capabilities and techniques to support customer requirements.

### **Converting & Assembling**

Fully integrated solutions for high precision cutting, conversion, perforation and assembly of simple to complex medical devices.

### **Liquids & Powders Filling**

Rapid filling of liquids, creams and powders into bottles, tubes and jars for wound care, ostomy and consumer products.

### **Printing**

State-of-the-art design and printing capabilities for labels, product and retail packaging.

### **Packaging**

Fully automated packaging capabilities for efficient customized solutions.

## Services

### **Research & Development**

Dedicated research team with expertise in development of wound care, consumer products and medical device fixation.

### **Regulatory Affairs**

Our experts offer full support from submission to clearance and post market surveillance.

### **Project Management**

Highly qualified project managers and engineers take projects from conception to commercialization.

### **Product & Graphic Design**

In-house design expertise and broad range of adhesives and performance materials to create innovative medical devices.

### **Laboratory**

R&D labs offer custom formulation, rapid prototyping and microbiology, analytical and stability testing.

### **Sterilization**

In-house gamma sterilization and partnered sterilization validation process for EtO and E-Beam.

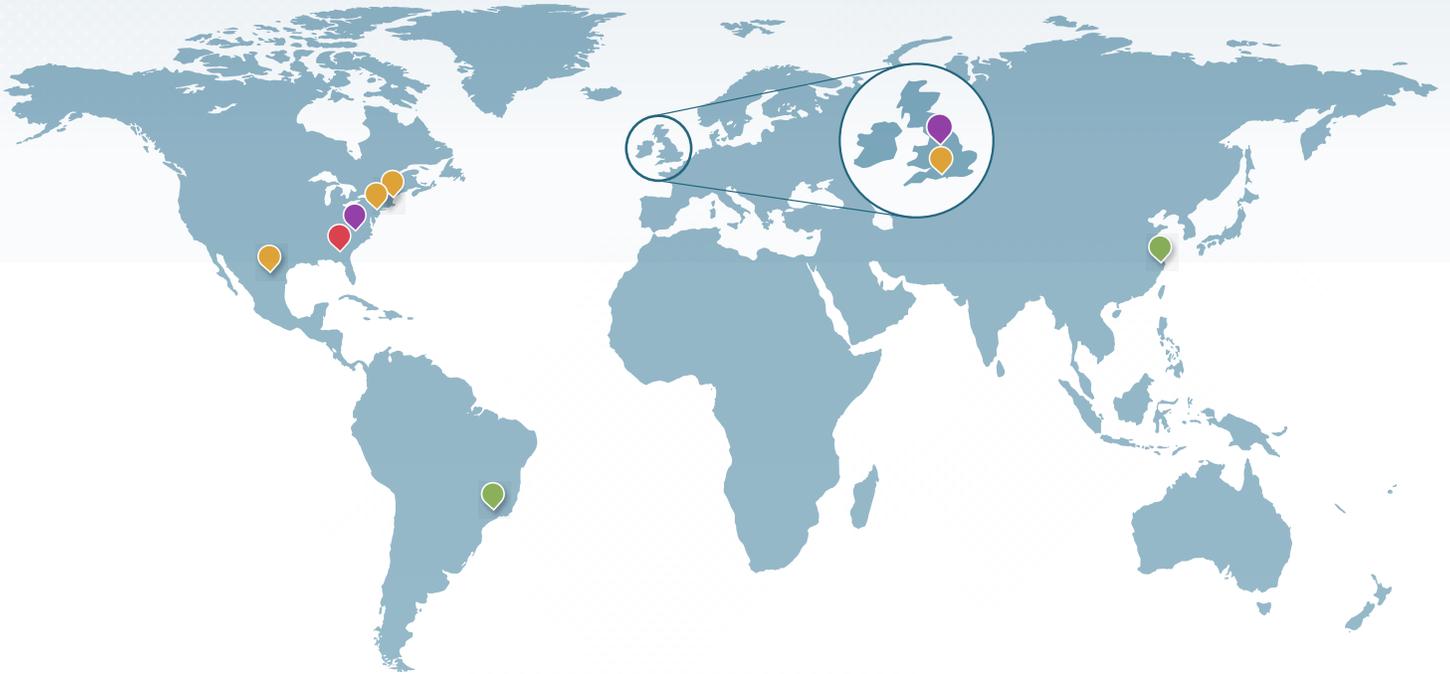

### **Logistics Solutions**

Full range of end-to-end logistics services for inventory, distribution, and customer care management.

# Global Footprint

With development and manufacturing facilities throughout North America and Europe, we can offer single source, dual supply to our partners.

Our facilities are ISO-certified and FDA registered with environmentally controlled rooms for full-scale production of finished goods.
