

A close-up photograph of several ECG electrodes attached to a person's skin. Each electrode consists of a white circular adhesive pad with a blue gel center. Wires connect the electrodes to a central point, with some having black and blue connectors. The background is a soft-focus view of human skin.

Scapa Soft-Pro® Hydrocolloid for Device Fixation

Skin adhesive technology for
medical devices

**Scapa Soft-Pro® Hydrocolloid
technology provides secure fixation
for medical devices.**
